

## REQUEST TYPES:

1. Screen + Follow up
2. Cherrypicked compounds
3. Virtual screen + Follow up
4. Compound handling

## DIVERSE COMPOUNDS

### SCREEN + FOLLOW UP :

- 2 SEK/Cpd with a minimum fee of 3000 SEK

### CHERRY-PICKING

- ≤ 5µl            32 cpds            3000 SEK
- 6 – 10 µl        10 cpds            3000 SEK
- 11 – 20µl       10 cpds            5000 SEK
- Solids            10 cpds            5000 SEK
- > 20µl          15 cpds            10000 SEK
- 3-point hit confirmation\*\*    3000 SEK
- 11-point DR\*\*                    3000 SEK

### SINGLE POINT AFTER VIRTUAL SCREEN (200 nl):

- First 384 plate                    5000 SEK
- Thereafter                        3000 SEK/plate

### FOLLOW UP AFTER VIRTUAL SCREEN (3-point or DR):

- Diverse cpds                    3000 SEK/plate

\* Every deviation outside the model in terms of volumes or number of compounds generates an extra fee of 3000 SEK

\*\* See "Follow up" for volumes, number of compounds and copies included

## ANNOTATED COMPOUNDS

### SCREEN + FOLLOW UP :

- 4 SEK/Cpd with a minimum fee of 5000 SEK

### CHERRY-PICKING (only echo-dispensing = nano scale):

- ≤ 5µl            15 cpds            5000 SEK
- 3-point hit confirmation\*\*    5000 SEK
- 11-point DR\*\*                    5000 SEK

### SINGLE POINT AFTER VIRTUAL SCREEN (200 nl):

- First 384 plate                    5000 SEK
- Thereafter                        3000 SEK/plate

### FOLLOW UP AFTER VIRTUAL SCREEN (3-point or DR):

- Annotated cpds                5000 SEK/plate

• Every deviation outside the model in terms of volumes or number of compounds generates an extra fee of 3000 SEK

• \*\* See "Follow up" for volumes, number of compounds and copies included

**FOLLOW UP included when screening :**

3-point hit confirmation

- 2 plate copies.
- 200 nl to divide on each plate, usually over 3 wells.
- Estimated number of compounds depends on size of screen.

Expected ~50-150

11-point DR

- 3 plate copies.
- 1.5  $\mu$ l / compound of 10mM stock to consume in total. Dilution plates will be created to fit the requested concentration.
- Estimated number of compounds depending on 3-point results.

Expected ~20-50

Analogues (11-point DR)

- 3 plate copies.
- 1.5  $\mu$ l / compound of 10mM stock to consume in total. Dilution plates will be created to fit the requested concentration.
- 64 cpds x1 or 32 cpds x 2.

**COMPOUND HANDLING**

- |   |                  |
|---|------------------|
| <b>1. Dispensing from ready echo compatible plate with compounds provided by user</b>           | <b>3000 SEK</b>  |
| <b>2. 1-20 compounds provided with formatting and transfer (dissolving and placed on plate)</b> | <b>5000 SEK</b>  |
| <b>3. 1-96 compounds provided on plate (non-echo compatible)</b>                                | <b>5000 SEK</b>  |
| <b>4. &gt; 20 compounds with formatting and transfer (dissolving and placed on plate)</b>       | <b>10000 SEK</b> |

*Note: the fee will be charged in conjunction with first take-out. Take-out of your own hosted compounds is unlimited in terms of volume and plate copies. After the first take-out the compounds will be formatted and only the minimum compound handling fee will be charged per take-out (3000 SEK)*

DIVERSE LIBRARIES:	Screen cost
• Primary screening set 37K.	70000 SEK
• SLL Enamine Druglike Diverse.	57000 SEK
• SLL Maybridge Hittfinder.	28800 SEK
• SLL ChemDiv Peptido mimetics.	31200 SEK
• SLL Timtec Natural Derivatives.	6000 SEK
• LCBU-2 Chembridge Diverse.	15400 SEK
• ASINEX Gold & Platinum	38000 SEK
• ASINEX Elite & Synergy	50000 SEK
• Otava Nucleobase Derivatives.	3000 SEK
• F-Fragment	3000 SEK
• SLL Fragment Library	3000 SEK

ANNOTATED LIBRARIES:	Screen cost
• All annotated sets without doublets (7.8K)	31200 SEK
• AZ pharmacological TB	5000 SEK
• BioMol Neurotransmitter set	5000 SEK
• ENZO TC	5000 SEK
• MCE Epigenetics	5000 SEK
• MCE Nucleotides	5000 SEK
• Nordic Oncology set (std layout*)	5000 SEK
• Nordic Oncology set (fPM layout*)	7000 SEK
• Prestwick FDA approved drugs	5000 SEK
• Selleck KKI	5000 SEK
• Selleck TC	5000 SEK
• SGC bromodomain probes	5000 SEK
• SPECS drug repurposing set	20 700 SEK
• SPECS Jump set	20 000 SEK*
• Tocris mini	5000 SEK

\*SPECS Jump set has its own price setting due to funding and ownership

\*Std layout = standard screening layout, 200nl single point

\*fPM layout= functional precision medicine layout
